| Symbol(s) | | |
| Signal Word | Warning | |
| Hazard Statement(s) | Combustible liquid. Harmful if inhaled. Causes skin irritation. | |
| | Causes serious eye irritation. May cause respiratory irritation. | |
| Precautionary Prevention Statement(s) | Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. | |
| | Keep away from flames and hot surfaces-No smoking. Avoid | |
| | breathing mist or vapor. Wash thoroughly after handling. Use only | |
| | outdoors or in a well-ventilated area. Wear protective | |
| | gloves/protective clothing/eye protection/face protection. | |
| Precautionary Response | If on skin: Wash with plenty of water. | |
| Statement(s) | If inhaled: Remove person to fresh air and keep comfortable for breathing. | |
| | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. | |
| | Call a poison center/seek medical attention immediately if you feel | |

| Section 4. First-Aid Measure | ires | |
|--|---|--|
| Inhalation | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a poison center or physician if you feel unwell. | |
| Skin Contact | Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs seek medical attention. Wash contaminated clothing before reuse. | |
| Eye Contact | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. | |
| Ingestion | Rinse mouth. Do not induce vomiting. Get medical attention if symptoms occur. | |
| Most Important Symptoms and Effects Both Acute and Delayed | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain. | |
| Immediate Medical Attention and Special Treatment | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed. | |

| Section 5. Fire-Fighting Measure | 8 |
|--------------------------------------|--|
| Suitable Extinguishing Media | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). |
| Unsuitable Extinguishing Media | Do not use water jet as an extinguisher, as this will spread the fire. |
| Specific Hazards Arising from | The product is combustible, and heating may generate vapors |
| the Product | which may form explosive vapor/air mixtures. Thermal |
| | decomposition will release oxides of carbon. |
| Special Protective Equipment | Self-contained breathing apparatus and full protective clothing |
| Precautions for Fire-Fighters | must be worn in case of fire. In case of fire and/or explosion |

can do so without risk.

| Section 6. Accidental Release | se Measures | |
|---|--|--|
| Personal Precautions | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). | |
| Protective Equipment | Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS. | |
| Emergency Procedures | Avoid inhalation of vapors and spray mists. Ensure adequate ventilation. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. | |
| Environmental Precautions | Avoid discharge into drains, water courses or onto the ground. | |
| Methods and Materials for Containment and Clean- Up | Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent entry into waterways, sewer, basements, or confined areas. Large Spills: Stop the flow of material if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water. Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual | |
| | contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. | |
| Section 7. Handling and Ste | 0 | |
| Precautions For Safe Handling | Keep away from open flames, hot surfaces, and sources of ignition. When using do not smoke. Avoid inhalation of vapors and spray mists. Avoid contact with eyes, skin, and clothing. Use only outdoors or in a | |

| Section 10. Stability and Reactivity | | |
|--------------------------------------|--|--|
| Reactivity | Stable | |
| Chemical Stability | Material is stable under normal conditions. | |
| Possibility of Hazardous | No dangerous reaction known under conditions of normal use. | |
| Reactions | | |
| Conditions to Avoid | Avoid heat, sparks, open flames, and other ignition sources. Avoid | |
| | temperatures exceeding the flash point. Contact with incompatible | |
| | materials. | |
| Incompatible Materials | Strong acids. Strong oxidizing agents. | |
| Hazardous Decomposition | At thermal decomposition temperatures, carbon monoxide and carbon | |
| Products | dioxide may form. | |

| Section 13. Disposal considerations | | |
|-------------------------------------|--|--|
| Disposal Considerations | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. | |
